Ans. : (d)

6.8 Security measures in E-Commerce

51. .....is used on the internet to protect user information being sent between a browser and a server. (March 2022)

(a) Encryption (b) Decryption

(c) Digital Signature (d) Digital Certificate

Ans. : (a)

52. .....converts plain text into Cipher text. (March 2022, 24)

(a) Decryption (b) Encryption

(c) Digital Signature (d) Digital Certificate

Ans. : (b)

53. .....converts Cipher text into plain text. (March 2023)

(a) Decryption (b) Encryption

(c) Digital Signature (d) Digital Certificate

Ans. : (a)

54. .....is of two types symmetric and Asymmetric. (March 2022, 24)

(a) Encryption (b) Private key

(c) Public key (d) Decryption

Ans. : (a)

55. A .....is also known as an electronic signature. (March 2024)

(a) Digital Certificate (b) Digital Signature

(c) Cryptography (d) EDI

Ans. : (b)

56. PKI stands for ..... (March 2022)

(a) Public Key Infrastructure (b) Personal Key Certificate

(c) Publish Key Certificate (d) Person Key Certificate

Ans. : (a)

57. ..... is also known as Public key certificate or identity certificate. (March 2024)

(a) EDI (b) Digital Certificate

(c) Trade Cycle (d) Digital Signature

Ans. : (b)

58. A ..... is an electronic password that allows organization to exchange data securely over the Internet using PKI. (March 2022)

(a) Digital Signature (b) EDI

(c) Trade Cycle (d) Digital Certificate

Ans. : (d)

MCQ (Two Correct Answers)

6.2 Definition of E-Commerce

1. E-Commerce is also referred as paperless exchange of business information using ....., ... (March 2023, 24)

(a) EDI (b) Electronic Fund Transfer

(c) Private Key (d) Public Key

Ans. : (a), (b)

2. Advantages of E-Commerce are ..... (March 2022, 23)

(a) Security (b) Global scope

(c) Cost saving (d) High setup cost

Ans. : (b), (c)

3. Disadvantages of E-Commerce are ..... (March 2023, 24)

(a) High set up cost (b) Late delivery

(c) Public serves (d) Any time shopping

Ans. : (a), (b)

4. Types of E-Commerce are ..... (March 2022, 23)

(a) B2C (b) C2B (c) G2G (d) G2E

Ans. : (a), (b)

5. Examples of B2C model are ....., ... (March 2023, 24)

(a) Linux (b) Flipkart (c) Amazon (d) Window

Ans. : (b), (c)

6. Examples of C2C model are ..... (March 2022)

(a) Network provider (b) OLX

(c) EDI (d) Quikr

Ans. : (b), (d)

6.3 E-Commerce Trade cycle

7. Following are the phases of Trade cycle. (March 2022, 23)

(a) Pre-sales (b) EDI (c) Trade Cycle (d) Execution

Ans. : (a), (d)

8. Pre-sales consists of two steps ..... and ..... (March 2022, 23)

(a) Order (b) Delivery (c) Search (d) Negotiate

Ans. : (c), (d)

9. The execution phase consists of ..... and ..... (March 2023, 24)

(a) Order (b) Delivery (c) Search (d) Negotiate

Ans. : (a), (b)

10. The settlement phase consist of ..... and ..... (March 2022, 23)

(a) Order (b) Invoice (c) Search (d) Payment

Ans. : (b), (d)

11. The After sales phase consists of ..... and ..... (March 2023)

(a) Order (b) Delivery (c) warranty (d) After sale service

Ans. : (c), (d)

6.4 Modes of Payment

12. Modes of payments are ..... (March 2022)

(a) M-Commerce (b) Mobile Payments

(c) E-Commerce (d) E-Wallets

Ans. : (b), (d)

13. Examples of Mobile payments apps are ..... (March 2024)

(a) BHIM (b) EDI (c) Paytm (d) Trade Cycle

Ans. : (a), (c)

14. Examples of Bank Transfers are ..... (March 2022, 23, 24)

(a) EDI (b) NEFT (c) IMPS (d) Cash Transfer

Ans. : (b), (c)

15. Examples of E-Wallets are .....

(a) Paytm Wallets (b) State Bank Buddy

(c) EDI (d) Trade Cycle

Ans. : (a), (b)

6.5 Forms of E-commerce

16. Common forms of E-commerce are ....., ...
    (a) Local Commerce (b) M-Commerce
    (c) National Commerce (d) Social Commerce

Ans. : (b), (d)

17. Application of M-Commerce are ....., ... (March 2022)
    (a) E-bill payment (b) Local Commerce
    (c) Mobile Banking (d) Social Commerce

Ans. : (a), (c)

18. Social Commerce is the use of networking websites such as ....., ... as vehicles to promote and sell products and services.
    (a) G-mail (b) Google Docs
    (c) Facebook (d) Twitter

Ans. : (c), (d)

6.6 E-Commerce Technology

19. Two common documents can be exchanged using EDI are ....., ...
    (a) Purchase orders (b) DOCs
    (c) Trading (d) Invoices (March 2022, 24)

Ans. : (a), (d)

20. Two most common documents used in EDI are _____ and _____.
    (a) sales order (b) purchase order
    (c) settlement (d) invoices (e) presale (March 2023)

Ans. : (b), (d)

6.7 E-governance

21. Advantages of E-governance are ..... (March 2022, 23)
    (a) Increase of overall cost (b) Decrease convenience
    (c) High transparency (d) Reduced corruption

Ans. : (c), (d)

22. Type of E-Governance are ..... (March 2022, 23, 24)
    (a) B2C (b) C2C (c) G2E (d) G2G

Ans. : (c), (d)

23. G2C type of E-governance provides services like ..... and ..... (March 2024)

(a) License renewals (b) Paying tax

(c) Trade Cycle (d) EDI

Ans. : (a), (b)

24. G2E type of E-governance provides ....., ... Online facilities to employees.

(a) License renewals (b) Salary payment record

(c) Booking Tickets (d) applying for leave (March 2024)

Ans. : (b), (d)

25. Examples of successful implementation of E-Governance projects are ..... and ..... (March 2022, 24)

(a) e-seva (b) e-Mitra (c) e-tax (d) e-friend

Ans. : (a), (b)

6.8 Security measures in E-Commerce

26. Encryption is of two types ..... and ..... (March 2022)

(a) Plaintext (b) symmetric (c) Coded text (d) asymmetric

Ans. : (b), (d)

27. Encryption consists of two processes ..... and .....

(a) EDI (b) Trade cycle

(c) Encryption (d) Decryption

Ans. : (c), (d)

28. Encryption converts ..... text into ..... text. (March 2022)

(a) Plain (b) Cipher (c) Random (d) General

Ans. : (a), (b)

29. Decryption converts ..... text into ..... text.

(a) Cipher (b) Plain (c) Random (d) General

Ans. : (a), (b)

30. Following are the security measure in E-commerce. (March 2024)

(a) EDI (b) Trade cycle

(c) Digital signature (d) Digital certificate

Ans. : (c), (d)

MCQ (Three Correct Answers)

6.2 Definition of E-Commerce

1. Advantages of E-Commerce are ..... (March 2022, 23)

(a) Global scope (b) Local scope
(c) Cost saving (d) Time restriction
(e) Anytime shopping (f) Involve intermediaries

Ans. : (a), (c), (e)

2. Disadvantages of E-Commerce are ..... (March 2022)

(a) Global scope (b) Expensive
(c) Cost saving (d) Lack of personal touch
(e) Anytime shopping (f) Late deliveries

Ans. : (b), (d), (f)

3. Types of E-Commerce are ..... (March 2022, 23)

(a) B2C (b) G2E (c) B2B
(d) G2G (e) G2C (f) C2C

Ans. : (a), (c), (f)

6.3 E-Commerce Trade cycle

4. Following are the phases of Trade Cycle. (March 2022, 23)

(a) C2B (b) Presale (c) Execution (d) Settlement
(e) B2C (f) C2C

Ans. : (b), (c), (d)

6.4 Modes of Payment

5. Following are the Modes of Payment ..... (March 2022)

(a) Presale (b) Execution
(c) Settlement (d) Mobile payments
(e) Bank transfer (f) E-wallets

Ans. : (d), (e), (f)

6. Examples of Mobile payment apps are .....

(a) BHIM (b) Trade Cycle (c) EDI
(d) UPI (e) Google pay (f) Google Docs

Ans. : (a), (d), (e)

6.5 Forms of E-commerce, 6.6 E-Commerce Technology

(I)

	A		B
(1)	M-Commerce (March 2022)	(a)	Form of E-commerce that involves social media that supports social interaction
(2)	Social Commerce	(b)	Electronic interchange of business information
(3)	EDI	(c)	Buying and selling of goods and services through smart phones and tablets

Ans. : (1) – (c), (2) – (a), (3) – (b)

6.7 E-governance

(I)

	A		B
(1)	G2C (March 2022)	(a)	Exchange of services between Government and Business organizations
(2)	G2B (March 2022)	(b)	Is the internal part of G2G sector
(3)	G2G (March 2022)	(c)	Refers to the interaction between different government departments, organization and agencies.
(4)	G2E (March 2022)	(d)	Refers to government services which enable citizens to access wide variety of public services.

Ans. : (1) – (d), (2) – (a), (3) – (c), (4) – (b)

6.8 Security measures in E-Commerce

(I)

	A		B
(1)	Encryption	(a)	Also known as electronic signature
(2)	Decryption	(b)	Converts plain text into cipher text
(3)	Digital Signature (March 2022)	(c)	Is a electronic password
(4)	Digital Certificate (March 2022)	(d)	Converts cipher text into plain text

Ans. : (1) – (b), (2) – (d), (3) – (a), (4) – (c)

Answer in Brief

6.2 Definition of E-Commerce

1. Define E-Commerce. (March 2022, 23, 24)

Ans. :

(i) E-Commerce is defined as the process of buying and selling of goods or services using an electronic medium such as Internet.

(ii) E-commerce is also referred as a paperless exchange of business information using EDI, E-mail, Electronic fund transfer etc.

2. Explain Advantages and Disadvantages of E-Commerce. (March 2022, 23, 24)

Ans. :

Advantages of E-Commerce : (March 2023)

(i) **Global scope :** E-commerce provides the sellers with a global reach. Now sellers and buyers can meet in the virtual world, without barrier of place.

(ii) **Electronic transaction :** E-commerce reduces the paper work and significantly lower the transaction cost.

(iii) **Anytime shopping :** The great advantage of E-Commerce is the convenience. A customer can shop 24 × 7.

(iv) **No intermediaries :** Electronic commerce also allows the customer and the business to be in touch directly, without any intermediaries.

Disadvantages of E-Commerce :

(i) **Setup Cost :** The setup of the hardware and the software, the training cost of employees, the constant maintenance and upkeep are all quite expensive.

(ii) **Security :** Security is another area of concern. Credit card theft, identity theft etc. remain big concerns with the customers.

(iii) **Goods Delivery :** There may arrive some problem with fulfillment of order. Even after the order is placed there can be problems with shipping, delivery, mix-ups etc. This leaves the customers unhappy and dissatisfied.

3. Difference between Traditional Commerce and E-Commerce. (March 2023, 24)

Ans. :

Traditional Commerce	E-commerce (March 2022)
Traditional commerce focuses on the exchange of products and services through personal interactions so it is manual.	E-commerce trading activities are online via the internet.
Traditional commerce is limited to business hours.	E-commerce is 24 × 7, it can be done anytime day and night.

Traditional Commerce	E-commerce (March 2022)
Traditional commerce provides face to face interaction.	E-commerce can be termed as screen to face interaction.
Traditional commerce is limited to a particular geographical location.	E-commerce is global and has no physical limitation.
Modes of payment in traditional commerce include cash, cheques and credit cards.	In E-commerce modes of payments are bank transfer, credit card, e-wallet, mobile payment and many more.
Goods and delivery of services is instant with traditional commerce.	In E-commerce delivery of goods or services takes some time.
Traditional Commerce's scope is local.	E-commerce's scope is global.

4. Explain type of E-Commerce. **(March 2022, 23, 24)**

Ans. :

Types of E-Commerce are as follows :

(i) Business to Consumer (B2C) :

(a) In B2C model, business sells it's products directly to customer.

(b) Customer can view and choose to order the products shown on the website.

(c) The website will send notification and organization will dispatch the product to customer.

(d) Examples Amazon, Flipkart etc.

(ii) Business to Business (B2B) :

(a) In B2B model, business sells products to an intermediate buyer.

(b) Buyer then sells the product to final customer.

(c) Example Tata communications.

(iii) Consumer to Consumer (C2C) :

(a) In C2C model, consumer helps consumer to sell their assets like cars, bikes, rent a room etc by publishing their information on websites.

(b) Example OLX, Quikr online auction.

(iv) Consumer to Business (C2B) :

(a) In C2B model, consumers have products or services of value that can be consumed by businesses.

(b) For example A blog can be written by an author for a business to improve sale of product ebay.

6.3 E-Commerce Trade cycle

5. Explain phases of Trade Cycle. **(March 2022, 23, 24)**

Ans. :

A trade cycle is the series of exchanges, between a customer and supplier that take place when a commercial exchange is executed. A general trade cycle consists of following phases:

(i) **Pre-Sales :** It consist of two steps like Search and Negotiate. Customer search for required website for product to be purchased. In Negotiate step customer find a supplier who offers good quality product at cheaper price and then customer agrees the terms forwarded by supplier.

(ii) **Execution :** This phase consist of Order and Delivery. Customer sends an order for the selected product and after processing the order, customer receives delivery of the product.

(iii) **Settlement :** This phase consist of Invoice (if any) and Payment. Invoice means customer will receive a bill for purchased product and after confirmation of received product, customer will pay for the same.

(iv) **After-Sales :** This phase consists of warranty and After Sale Services. In warranty period, customer will get all maintenance services for free or at minimum cost. After sale services means customer will do complaints (if any) about the performance of product and get maintenance service from the supplier.

6.4 Modes of Payment

6. Explain various Modes of Payment. **(March 2022, 23, 24)**

Ans. :

(i) **Credit Cards :** Credit cards are the most common ways for customers to pay online. Merchants can reach out to an international market with credit cards by integrating a payment gateway into their business.

(ii) **Mobile Payments :** Mobile payments offer a quick solution for customers to purchase on e-commerce websites. Examples are apps like Paytm, Google Pay, BHIM etc.

(iii) **Bank Transfers :** Bank transfer is used when money is send from one bank account to another. Transferring money from bank account is fast and safe then cash withdrawal. Example NEFT, IMPS etc.

(iv) **E-wallets :** E-wallet is a type of electronic card which is used for transactions made online through a computer or smart phone. It is a type of prepaid account in which user can store money for future transaction. Examples are State Bank Buddy, Paytm Wallets. **(March 2023)**

6.5 Forms of E-commerce

7. Write Short notes on :

(i) M-commerce (Mobile Commerce) (March 2022, 23, 24)

(ii) Social Commerce (March 2023)

Ans. :

(i) M-commerce (Mobile Commerce) :

(a) M-commerce is buying and selling of goods and services through wireless devices such as smart phones and tablets.

(b) M-Commerce enables the user to access online shopping platforms without using desktop computers.

(c) Applications of M-Commerce are Mobile banking, E-bill payment, ticket booking etc.

(ii) Social Commerce :

(a) Social Commerce is a form of electronic commerce that involves social media that supports social interaction.

(b) It enables shoppers to get advice from trusted individuals, find good and services and then purchase them.

(c) Social commerce is the use of networking websites such as Facebook, Instagram and Twitter to promote and sell products and services.

(d) The success is measured by the degree to which consumers interact with company's marketing through retweets, likes and shares.

6.6 E-Commerce Technology

8. Short note on Electronic Data Interchange (EDI). (March 2022, 24)

Ans. :

Electronic Data Interchange (EDI)

(i) EDI is the electronic interchange of business information using a standardized format.

(ii) It is a process which allows one company to send information to another company electronically rather than on paper.

(iii) Business entities conducting business electronically are called trading partners.

(iv) In EDI, two most common documents which are exchanged are purchase order and invoices.

6.7 E-governance

9. What is E-Governance? **(March 2022, 24)**

Ans. :

(i) E-Governance signifies the implementation of Information Technology in the Government processes.

(ii) The basic purpose of E-Governance is to simply processes for all, i.e. government, citizens, businesses etc. at all levels.

(iii) E-Governance delivers SMART (S-Simple, M-Moral, A-Accessible, R-Responsive, T-Transparent Government).

10. List the advantages of E-Governance. **(March 2022, 23, 24)**

Ans. :

Advantages of E-Governance are :

1. Improves delivery and efficiency of government services
2. Improved government interactions with business and industry
3. Citizen empowerment through access to information
4. More efficient government management
5. Less corruption in the administration
6. Increased transparency in administration
7. Greater convenience to citizens and businesses
8. Cost reductions and revenue growth
9. Increased legitimacy of government
10. Improved relations between the public authorities and civil society

11. Explain types of E-Governance. **(March 2022, 23, 24)**

Ans. :

E-Governance is of 4 types depending on the specific types of services :

1. **Government to Citizen (G2C) :** **(March 2023)**
   - (i) The Government to citizen refers to the government services which enable citizens to get access to wide variety of public services.
   - (ii) Most of the government services fall under G2C.
   - (iii) A citizen can have access to the services anytime from anywhere.
   - (iv) Services like license renewals and paying tax are essential in G2C.
   - (v) It also focuses on geographic land barriers.
2. **Government to Business (G2B) :**
   - (i) G2B is the exchange of services between Government and Business organizations.

(ii) G2B provides access to relevant forms needed to comply.

(iii) The G2B consists of many services exchanged between business sectors and government.

(iv) It aims at eliminating of paper work, cost and establish transparency in the business environment while interacting with government.

3. **Government to Government (G2G) :** (March 2023, 24)

(i) The Government to Government refers to the interaction between different government departments, organizations and agencies.

(ii) In G2G government agencies can share the same database using online communication.

(iii) The government departments can work together.

(iv) G2G services can be at the local level or international level.

(v) It provides safe and secure inter relationship between domestic or foreign government.

4. **Government to Employee (G2E) :** (March 2023)

(i) The Government to Employee is the internal part of G2G sector.

(ii) G2E aims to bring employees together and improvise knowledge sharing.

(iii) G2E provides online facilities to the employees like applying for leave, reviewing salary payment record and checking the balance of holiday.

(iv) This sector provides human resource training and development.

(v) Examples of successful implementation of E-governance are e-Mitra, e-Seva project, CET (Common Entrance Test).

6.8 Security measures in E-Commerce

12. Explain process of Encryption. (March 2023, 24)

Ans. :

(i) Encryption is widely used on the internet to protect user information being sent between a browser and a server.

(ii) This includes passwords, payment information and other personal information that should be considered private.

(iii) Encryption converts Plain text into Cipher text means non readable form of data.

(iv) Decryption is opposite of encryption i.e. it converts Cipher text into Plain text.

(v) **Encryption is of two types :** Symmetric and Asymmetric.

13. Write short notes on :

(a) Digital Signature (March 2022, 23) (b) Digital Certificate (March 2023)

Ans. :

(a) Digital Signature : **(March 2024)**

(i) Digital Signature is also known as electronic signature.

(ii) Digital Signature guarantees the authenticity of an electronic document or message in digital communication and uses encryption technique to provide proof of original and unmodified documentation.

(iii) Digital Signatures are used in E-commerce, financial transactions.

(iv) This is the direct transfer of information between two partners.

(b) Digital Certificate :

(i) Digital Certificate is an electronic record "password" that allows a person, organization to exchange data securely over the internet using the public key infrastructure (PKI).

(ii) It is also known as public key certificate or identity certificate.

(iii) Using Digital Certificate information is transferred between two authorized partners who have digital certificates issued by supreme authority.
